

DP WORLD

DUBAI - FACILITATING TRADE OF CHEMICALS AND PETROCHEMICALS

Witness chemistry at the heart of Jebel Ali. Situated amid the petrochemical producers, at a strategic geographical location, and with port infrastructure complemented by dense network of global liner connectivity - Dubai is the hub for the Petrochemical Supply Chain.

The petrochemicals sector is an integral pillar of the UAE's Industrial Strategy 'Operation 300bn' that is expected to increase the GDP from AED 133 billion to AED 300 billion by 2031.

Our footprint in the petrochemical trade lanes and Jebel Ali's connectivity to these markets, best positions you to tap the growing consumer demand.

JEBEL ALI PORT HANDLES

65% of GCC's polymer exports

33% of GCC's petrochemical exports

Progressive logistics expertise

High productivity

Reliability

Innovative, customer-oriented approach

State of the art infrastructure

Cost efficiency

Flexibility

Highest SHEQ standards

Container Handling Infrastructure

22.4 Million TEU; 31 Berths

Containerised Chemicals - Solid/Liquid

Dedicated Liquid Chemical Handling berths

11 berths 2 Million Sqm Installations

Liquid Bulk Handling

Liquid Bulk Storage Tanks

Over 1 Million CBM

Liquid Chemical Storage

Logistics Capabilities

Port centric logistics

Solid and Liquid petrochemicals

OUR RANGE OF LOGISTICS AND SUPPLY CHAIN SOLUTIONS:

JEBEL ALI PORT

Specialized chemical-grade warehousing, storage and ISO tank storage | Hub solutions | Terminal/berth concessions | Modal conversion | Freight solutions by sea, land and air | Customs brokerage | Value added logistics services

JEBEL ALI FREE ZONE

Dangerous goods warehousing | ISO tank storage | Tank cleaning and repairing services | Picking, bagging and drumming | Packaging and labeling | Order handling | Chemical blending – tank and in-line | Other value added logistics services

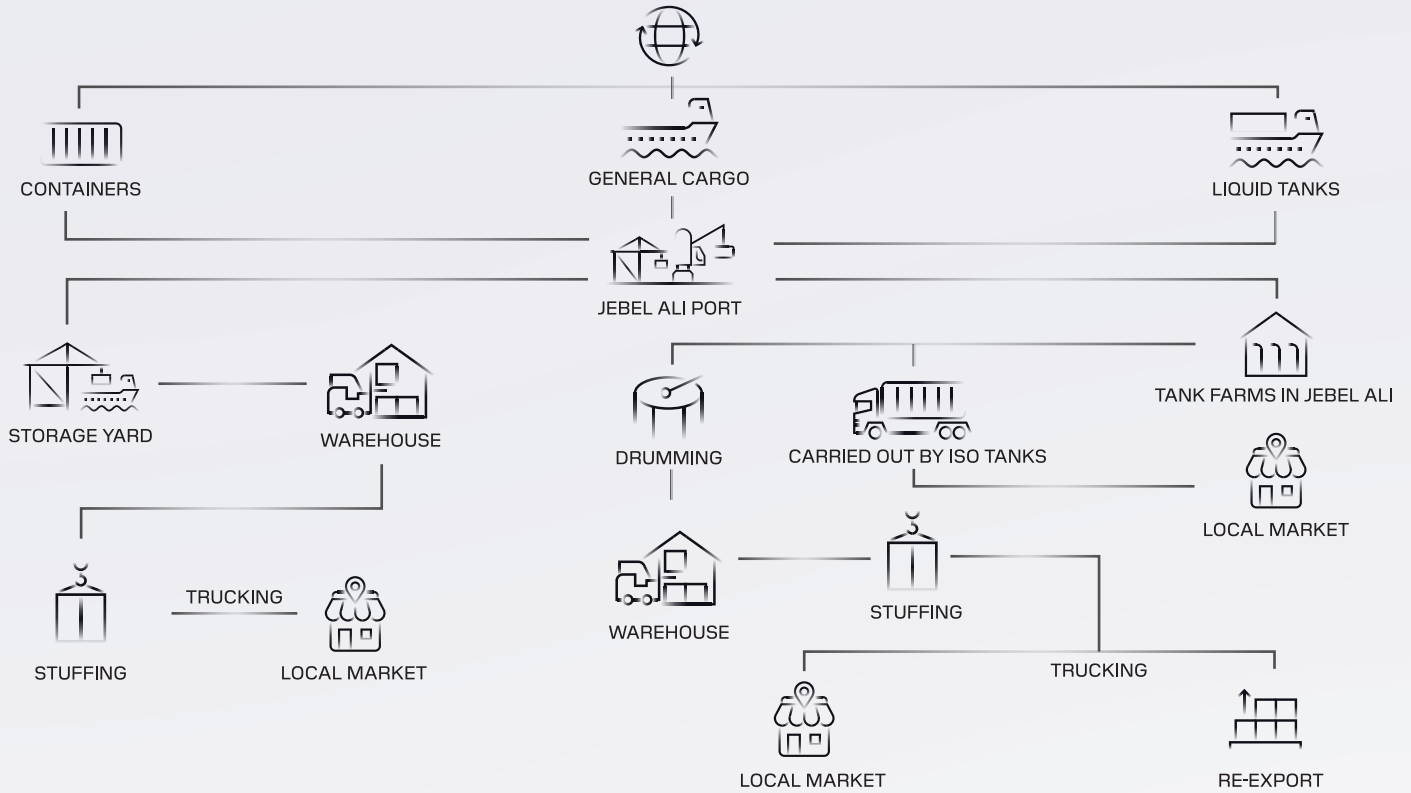

DP WORLD

ACCELERATING GROWTH

Jebel Ali Port is the regional hub for the world's leading petrochemical major, that caters to demand across markets of Indian Subcontinent, Africa and the Middle East. It remains their hub of choice due to Jebel Ali's polyfunctional terminals, port centric logistics facilities offering chemical grade warehousing, value add logistics to connectivity to high-growth consumer market.

POWERING PROGRESS

One of the largest chemical distributor in the Middle east and Africa has chosen JAFZA as the base for investment and trade. Established in 1995, the company imports cargo in bulk and containers, stores it at the tank farms in JAFZA that can accommodate nearly 26,000 m3. The cargo is then repackaged in drums and ISO tanks for further distribution across wider region.
